A Lean Management System

Methods

- Value Stream Mapping
- Kaizen Boards
- Daily Huddles
- A3 Problem Solving
- Strategy Deployment
- Performance Measures

Mindsets

- Customer Focus
- Respect for People
- Create a system in which people can be successful
- Engage everybody
- Scientific, systematic problem solving and improvement

A Lean Management System

- One goal is reducing waste
 - This includes “management waste”
 - Wasted motion
 - Overprocessing

“What gets
measured,
gets managed.”

How do
we manage?

% UA Completed Prior to Appointment

Three Key Questions

1. Are we achieving our target or goal?
2. Are we improving?
3. How do we improve?

Surgical Dashboard

Performance Measure	Target	Aug'05	Jan '06	Feb '06	Mar '06	Apr '06	May '06	Jun '06	Jul '06	Aug'06
REVENUE										
Total Patient Workload (cases)										
Total Cases		532	569	521	594	623	643	492	532

1. Are we achieving our target or goal?

2. Are we improving?

3. How do we improve?

Three Key Questions

True North Pillar	Metric	Desired Direction		Jan-16	Feb-16	Mar-16	Apr-16	May-16	Jun-16	Jul-16	Aug-16	Sep-16
Quality & Safety	Falls with Severe Injury	DOWN	Actual	0	1	0	0	1	0	0	0	0
			Target	0	0	0	0	0	0	0	0	0
Quality & Safety	CLABSI	DOWN	Actual	0	0	1	0	0	1	2	0	0
			Target	0	0	0	0	0	0	0	0	0
Quality & Safety	CAUTI	DOWN	Actual	1	0	0	0	0	0	0	1	1
			Target	0	0	0	0	0	0	0	0	0
Team Engagement	Necessary Information Available Survey	UP	Actual	67%	50%	48%	70%	46%	40%	60%	70%	50%
			Target	80.00%	80.00%	80.00%	80.00%	80.00%	80.00%	80.00%	80.00%	80.00%
Patient Experience	Likelihood to recommend	UP	Actual	76.40%	78.40%	80.50%	70.00%	46.00%	40.00%	60.00%	70.00%	50.00%
			Target	79.90%	79.90%	79.90%	79.90%	79.90%	79.90%	79.90%	79.90%	79.90%
Patient Experience	Hospital rating	UP	Actual	76.40%	77.70%	77.60%	77.60%	77.20%	77.60%	77.00%	75.00%	63.00%
			Target	77.50%	77.50%	77.50%	77.50%	77.50%	77.50%	77.50%	77.50%	77.50%

- Which of these numbers (if any) suggests that the system has changed significantly?
- Which of these merit reaction, investigation, or explanation?
- How do we prioritize?

Additional Questions

WWTD?

Any improvement process should be driven by targets that have these characteristics. Then consistently measure and plot the measures on simple visual trend charts as discussed in Chapter 14. In this case,

- ◆ **Tendency.** Is the problem getting worse, improving, or staying the same? When comparing problems it is necessary to consider whether every problem should be addressed.

Figure 14-5. Trend chart of monthly units per hour

There is Variation in Every Metric

- The question is "how much variation is routine?"
- Personal examples:
 - Body weight
 - Time to drive to work
 - Resting heart rate

Signals vs. Noise

“While every data set contains noise,
some data sets may contain signals.

Therefore, before you can detect a signal
within any given data set,
you must first filter out the noise.”

NOISE

Three Key Questions

- **Question 1: Are we achieving our target or goal?**
 - a. Are we doing so occasionally?
 - b. Are we doing so consistently?
- **Question 2: Are we improving?**
 - a. Can we predict future performance?
- **Question 3: How do we improve?**
 - a. When do we react?
 - b. When do we step back and improve the system?
 - c. How will know if we've improved?
